5	Materials Ready → Schedule	Paradigm confirms ready	Notify installer + client. JN → Scheduled.
6	Job Complete → Invoice + Review	JN = Job Complete	QB final Invoice + Receipt + review SMS sequence
7	Closed Won → Archive	JN = Closed Won	QB closed + full job record → Google Drive
8	Always-Running Backup	Any JN or QB update	Continuous push to Google Drive by division

5. ALBERTA HAIL & INSURANCE STRATEGY

Summer 2024 — most destructive hail season in Canadian history: 228,000 claims, $8B+ insured damage, $4.1B in Alberta. August 2024 hailstorm damaged ~60,000 Calgary-area homes. $5B+ in hail claim damages in Calgary over 3 years.

IronWrap's Pitch: "Your insurance is already paying to replace your roof. For the cost of your deductible plus a manageable monthly payment, you never file a hail claim again."

• ThyssenKrupp steel + standing seam — likely qualify for Class 4 impact ratings

• 5–35% insurance premium discounts for homeowners with impact-resistant roofs

• Aviva offers up to $2,500 toward hail-resistant materials in Alberta

• FinanceIT bridges the $10K–$20K+ gap between insurance payout (asphalt) and metal upgrade

• Custom Proposal Tool's Renoworks visualization is a strong differentiator at the claim sales moment

• Calgary is where the volume is — strategic expansion priority

6. OPEN ITEMS — v9.1

#	Priority	Item	Detail
1	IMMEDIATE	Contract platform	JN native vs NaturalForms — Form #8
2	IMMEDIATE	Material List design	Option A (single multi-scope) vs Option B (per scope) — Form #11
3	SHORT-TERM	Custom Proposal Tool scope + quote	Form #12 — Renoworks embed, dynamic pricing, hosting
4	ONGOING	Renoworks → JN integration	Confirm field mapping; identify Make.com gaps
5	ONGOING	Renoworks product library	Confirm $8,000 setup covers required profiles (Monterey, Era)
6	ONGOING	Paradigm ERP demo	Confirm Make.com webhook format + rollformer models
7	ONGOING	WooCommerce build scope	Define B2C store
8	STRATEGIC	Calgary market expansion	Sub-operation vs partnership vs timeline
